Mina and the Missing Moon

Move the shadow moon

You can draw, point, write or talk it through with someone.

Have a go

Imagine a torch, a paper moon and a wall. Draw them in the order that would let the paper moon make a shadow on the wall.

Try another step

Predict what happens to the shadow if the paper moves nearer the torch while the wall stays still. Draw the before and after. You can test it with a grown-up.

Check your thinking

With a small light source, moving the paper closer to the light makes its shadow larger.
