PUPIL SHEET 02

A message I want heard

You can use an idea from the story, make one up, or choose something you would like to share. You can also leave this page for another time.

Something I would like someone to know

My idea or preference

How I would like to share it

Who could help and what I would like to happen next

Ari’s example: “I would like the quiet path included in our model. I can show my drawing. Ms Morgan can help the group make space for it.”

PUPIL SHEET 07

I can update my choice

A first plan does not always suit us later. Use Ari’s changing exhibition role, invent a situation, or choose an example of your own. You can write, draw, talk it through or pass.

At first I chose

Now I would prefer

What I would like the other person to understand

Who could help check the next step

You might begin with “I have thought about it again” or “Could we change this part of the plan?”
