The Gig That Nearly Sold Out

Count the ticket money

You can draw, point, write or talk it through with someone.

Have a go

A gig sells four early-bird tickets at £6 each and three standard tickets at £8 each. Work out the money each group brings in.

Try another step

Keep the ticket numbers the same. Change the standard ticket price so the smaller group brings in more money. Show one price that works.

Check your thinking

Both groups bring in £24. At £9 per ticket, the three standard tickets bring in £27.
