The Giraffe That Teaches Math: Mabel

Hide two in Mabel’s meadow

You can draw, point, write or talk it through with someone.

Have a go

Put five counters in a pretend meadow or draw five dots. Cover two with a paper leaf. How many can you still see?

Try another step

Show the same five in a drawing and a number sentence. Let someone hide a different number, then work out how many are under the leaf.

Check your thinking

Five take away two leaves three. Two hidden and three showing still make five.
