The Month Ahead

Change a three-week budget

You can draw, point, write or talk it through with someone.

Have a go

A fictional budget has £45 left for three weeks. Make an equal plan and write how much is available each week.

Try another step

An unexpected expense uses £9 before week one. Adjust the three amounts. Check the new total and explain one choice.

Check your thinking

An equal first plan is £15 a week. After the £9 expense, an equal plan is £12 a week.
